

Lutz & Associates Equipment and Products Summary

Lutz & Associates represents companies whose equipment and components are used to speed up production and reduce labor and material costs.

ASSEMBLY EQUIPMENT

Parts placement

Riveting machines: impact, orbital, radial, blind rivet and hot upset

Parts conveying systems

Vibratory and centrifugal feeding equipment

O ring, seal and retaining ring insertion equipment

Parts assembly and automation systems

Heat Staking, Heat Sealing and Degating Systems

Programmable servo heat staking

Medical device manufacturing equipment

DECORATION AND MARKING EQUIPMENT

Heat transfer and hot stamping machines

Hot stamp foil and heat transfers and the associated tooling and fixtures

Dot and stripping ink marking

Digital heat transfers

Digital flat bed printing machines.

PRECISION FABRICATED COMPONENTS

Screw machine parts

Extruded aluminum shapes and parts

Aluminum impact extrusions
